Jatiya Yuva Computer Shaksharta Mission is the new lighting of computer education in India. The great scholars realized to make each Indian's life fulfilled with prosperity and improvement, progress through computer education. Jatiya Yuva Computer Shaksharta Mission is pioneer of making their attempt real. On the Golden highway of twenty first centuries to make people united for formation of new India the first step Jatiya Yuva Computer Shaksharta Mission is at your doorstep. We are very happy to introduce this golden opportunity. Jatiya Yuva Computer Shaksharta Mission has come with all packages that are needed. It is about to make a new era in computer education.

## Objective of the programme

In present time, some big Institution run their certificate/diploma programme in higher charges, due to which the lower and middle class families of our society cannot afford the load of their charges. Our mission studied their theme properly and decided to provide better higher technical education in computer for every sector of society in affordable charges all over India.

## Jycsm Faculty

JYCSM faculty are full time, Qualified and friendly professionals, always there to guide the students, specially trained to understand students psychology, internalise the knowledge uniformly and put across difficult to understand concept with ease, Thus making students learning ventures smooth and easy. The whole training time is equally divided into theory and practical sessions. A part from regular computer time, students are allowed to utilise unlimited machine time to exercise their mind, boost their creativity and increase their level of curiosity. This builds-up their self confidence, allows them to explore the wide horizon of computer and gradually shapes them into confident professionals.

## LIBRARY INFRASTRUCTURE

The JYCSM centres have a well-stocked library with a collection of around 600 volumes comprising functional Programming, Parallel Processing System Database Management System, Client Server Computing, Computer Networks, Operating System, Multimedia, Object Oriented Programming etc.

The library subscribes to collection of Indian and foreign journals and periodicals in the functional and general areas thus maintaining latest espouses to the student and helping them keep abreast of the latest developments in the I.T. industry.

## COMPUTER LAB

JYCSM centre have a good computer lab. The computer lab contains high configurations computer networked with WI-FI zone.

## OTHER INFRASTRUCTURE

Excellent classrooms, other audio-visual teaching learning devices and vast play ground contribute to interactive teaching learning environment and to overall development of the student.

## Interactive Learning Environment

The greatest advantage of JYCSM lies in its interactive approach-a concept which stimulates spirit of innovation and self-achievement. The courses give the students, freedom to develop their spirit of innovation and explore the professional world of computers with the guidance of JYCSM experienced faculty.

1. Personalized teaching methodology.
2. Extensive hand on approach.
3. Video Audio Learning System.
4. Extra classes in career orientation and self development.

After the completion of each module, the performance of the students is monitored through regular tests. Measure are taken to rectify their mistakes and improve their skills.

All lectures are designed and updated periodically to incorporate technological advancements. Lectures are planned in such a way that they enable the students to appear successfully in the job market and handle interviews confidently.

## THE PLACEMENT CELL

The placement cell of JYCSM is responsible for coordinating the placement activities of the students of the institute. A placement coordinator from the faculty heads the placement cell with committee members representing the students. Almost all the placements activities are organized and coordinated by the students under the able guidance of faculty.

## PLACEMENT PROCEDURE

An early intimation of the intended schedule would facilities arrival at mutually convenient dates. The company may deliver Pre-Placement talk either earlier or before the campus requirement program itself. At the campus the company may conduct a written test and or interview etc. Job offers or responses may be routed only through the placement coordinator. In some cases if a company wishes to conduct off campus recruitment as well, they may provide the travelling allowances for such outstation selection.

## CHAIRMAN MESSAGE

Information Technology has become a fastest growing Industry in today's scenario which is providing thousands of job to well trained professionals. India has achieved a terrific growth in this field and is being considered as a potential I.T Super Power in the world. Information Technology is providing the upcoming future that will change every face of human existence.

In order to produce Information Technology Professionals, I.T education requires a high quality competence and infrastructure. Today, new packages, newer versions of current software and new technological tools are being adopted by the trade and industry periodically. The education therefore, must catch up with these developments well in time so that I.T students do not face the problem of obsolescence. Jatiya Yuva Computer Saksharta Mission feels the underlying concepts of new technology and tools along with reasonable skills be delivered to the students before they go out in the industry.

Thus in a very fast changing technical scenario, concept and practical based education becomes quite important as against tool based education. Technological changes also demand that institutions must consider the market scenario, and adjust the contents and delivery of education matching the expectations of the business houses.

Education, situation and adaptation these three subjects are integrally involved with human life. The only mission of education is to adapt people in changing society. Only education can help people to achieve their certain target in moving society. As the target is to get the ultimate success, Jatiya Yuva Computer Shaksharta Mission has reached with the new message of to be eligible of being successful. The only vision of this program is universal computer literacy. As a result in 2025 the rate of computer literacy will reach up to 60%-70% in India. So our request is to all let us take a step ahead towards a bright golden future with Jatiya Yuva Computer Shaksharta Mission.

I am sure our students can meet any demand & challenges that the employer may have on them. I wish them great success in all their Endeavour's and quest for a better tomorrow.
